

TMF Logo and Spirit

The Logo

shaped in a circle, has two huge leaves rooted in Taiwan soil and reaching out to the edge of the globe that is surrounded by the bilingual title of TMF. The color theme is green in general. The design is simple, unique and elegant.

Meaning and Spirit of Logo

Taiwan, a beautiful island, is like a small mustard seed. Both the small island and the big leaves are full of energy and life. TMF holds onto this vision: With actions of love, like a little mustard seed growing into a big tree, we will bring the gospel of the cross to Taiwanese communities across the world. Furthermore, the blessings will reach all peoples. The design also symbolizes that Taiwan missions soar high like a bird spreading its wings in the wind of the Holy Spirit. Numerous crosses created by the lines of latitudes and longitudes over the earth, signify that the whole world will eventually know God's love and Jesus Christ's salvation and sing His praises.

May this logo remind us to be faithful to our original vision with an open mind to achieve our goals and accomplish our missions. Be persistent and steadfast! My friends, let's work together in the Taiwan Mission.
